MERILLAT CABINETRY

MERILLAT CABINETRY

CUSTOMER SUPPORT RESOURCES

MERILLAT.COM

Our website offers many ways to inspire beautiful cabinetry solutions. Highlights include:

- View inspirational designs and photos
- Visualize door styles by species and finish
- Educate consumers about wood characteristics, installation, and cabinetry care

TANDEM DEALER PORTAL

If you're not registered for Tandem, you could be missing important product and brand information. Visit <https://tandem.cabinetworksgroup.com> to register today so you can:

- Place an order, check order status, and track deliveries
- Download 2020 Design catalogs
- Order samples, displays, and more
- Access literature, training resources, and marketing tools

With Tandem we're putting you at the heart of the Cabinetworks experience. You focus on customers and the life they want to build. We'll organize and optimize everything else — from design to delivery to done.

Order Management:

- Place your orders via Tandem, the fastest and preferred order entry method
- If there are questions with your order, you will be notified to contact Customer Care
- Check the status of your order any time on Tandem

CUSTOMER CARE RESOURCES

Self-serve options are nice, but sometimes you just want to talk to someone. Whatever your preference, we're here to help.

Contacting Customer Care:

- (855) 896-9798
- dealercare@cabinetworksgroup.com
- Hours: M–F, 8 AM to 6 PM ET

Additional Support:

- Catalogs:
2020catalogsupport@cabinetworksgroup.com
- Spec Books:
specbooksupport@cabinetworksgroup.com

Contact Customer Care for help with:

- Product questions
- Expediting orders
- Tandem questions

Contact your account manager for help with:

- Display requests
- Literature replenishment
- Warranty resolution
- Logistics concerns
- Design questions
- Promotional inquiries

CANCELLATION POLICY

Our products are made to order. That means we don't start building your cabinets until your order is placed. Due to our fast shipping schedule, orders are fulfilled as quickly as possible, affecting our ability to accept cancellations. To consistently maintain the quick shipping schedule, our policy is that orders cannot be canceled once placed.

Code System

Ordering Code

Order codes are built from global options, model, and model options which together define an orderable item. The order code is created from the door, finish, construction, cartoning, model and model options to complete the order code. The order code can incorporate all possible combinations available in this product line. Each order code must be complete to be recognized as a unique product. By understanding the code system you can identify any product with any variation or option in one place.

Following is a breakdown of each order code segment and how it combines to make a full order code. Each segment is identified with an identification number. That number will be repeated on this page and every page where the specification of product relates to a segment position of the order code.

Vanity Combination Drawer 30" Wide x 34 1/2" High Drawers Left	VCD3035DL

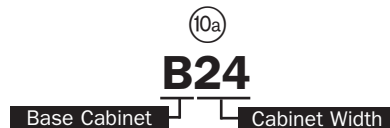

Standard Cabinets

Wall Cabinet widths are always listed first followed by height. A standard wall cabinet is 12" deep except for Wall Refrigerator Cabinets which have a standard depth of 24". Thus 27 is the width, 30 is the height and depth is 12". Depth is only listed as the last two numbers when depth is other than standard. Cabinets with a "B" suffix have BUTT Doors without a center stile.

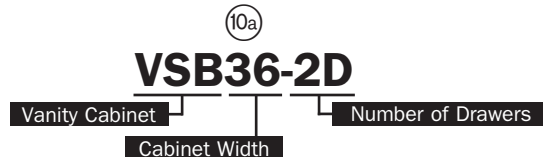

Tall cabinets follow the same sequence characteristics as Wall Cabinets; width first followed by height (eg: U1884). In those instances where the cabinet depth is greater than 12", the sequence is width and height, followed by depth (eg: U188424).

Base Cabinets are simpler than Wall Cabinets because the height (34 1/2" plus 1 1/2" for the countertop) and the depth (24") are always the same unless otherwise noted. The only numbers you need to know are the width. Cabinets with the "B" suffix have BUTT doors without a center stile.

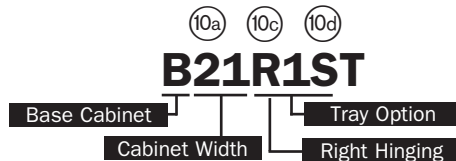

Vanity Cabinets are similar to Base Cabinets; the numbers are used to represent the width. Vanity Sink Base Cabinets are either 31 1/2" or 34 1/2" high plus 1 1/2" for the countertop. This particular cabinet is 31 1/2" high and comes standard with two drawers and is located at the end of the code.

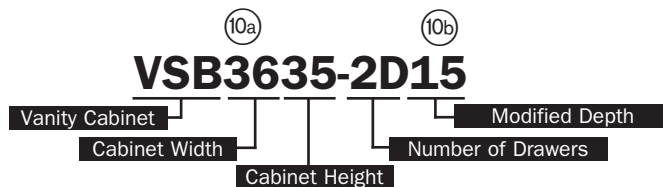

Cabinets with Options

Trays are an available option for select Base Cabinets. With Trays as options, we are able to communicate with greater detail the different trays to choose from and the availability of the option with ease. The option of 1 Standard Tray has been chosen for this cabinet.

Modified Depth options are available in increments of 3". With six options of Modified Depth to choose from, you are able to interact with our products on a truly semi-custom level. The option of reduce to 15" deep has been chosen for this cabinet. This cabinet is 36" wide, 34 1/2" high with 2 drawers and a modified depth of 15".

Door Styles

Wood Species and Characteristics

Birch is a medium-density hardwood with a distinct, moderate grain pattern that ranges from straight to wavy or curly. The predominant sapwood color is white to creamy yellow, while the heartwood varies in color from medium or dark brown to reddish brown, which may result in color variation within the same door.

Laminate is a thermo-plastic polymer wrap that is applied to engineered wood or Medium-Density Fiberboard (MDF). This cabinetry gives you a uniform appearance.

Finishes

Finishes protect and enhance the natural beauty of wood. Extra care is taken to assure a uniform finish. Because we are dedicated to customer satisfaction, we feel that it is important to explain some of the characteristics of finishes on hardwood.

Finish Terminology

End Grain

End grain surfaces and softer areas of the wood may accept more stain and often appear darker than other surfaces. This is a natural reaction when finishing wood products and potential variances cannot be controlled.

Joint Lines

Since wood is in a constant state of expansion and contraction, visible lines are normal at the joints on the cabinet face frames and doors. This does **not** weaken the finish or the strength of the joint.

Warping, Cracking & Proper Humidity

As a natural characteristic, all wood products contain moisture. Changes in temperature and humidity affect the moisture content in wood, which causes wood to expand or contract. Over time, this expansion or contraction can cause warping and joint cracks to occur, potentially causing permanent deformations in wood cabinetry.

To help prevent excessive movement in your wood cabinetry, we recommend maintaining a controlled environment of 70 to 75 degrees Fahrenheit and 30% to 50% humidity in the areas where your cabinetry is stored or installed. Environmental conditions **cannot** be controlled by the manufacturer and the effects of the movement in wood is **not** considered to be a manufacturing defect and will **not** be considered a reason for replacement.

Note: Wood products, including cabinet doors and face frames, are typically affected by environmental conditions. Color variation over time, as well as normal movement due to wood's expansion and contraction is part of the natural beauty of wood. This normal movement may cause hairline cracks in the finish surface at the joints and is considered a normal characteristic of semi-opaque or painted finishes. This will **not** be considered a reason for product replacement.

See the door section of this book for door specie information and descriptions

Stain Finish Process

Stain is applied and brush-wiped to desired color. Next, sealer is applied to protect the finish and minimize warping and cracking of the hardwood. Sealer is then sanded to develop a bonding surface for the topcoating process. As a final step, a heat activated topcoat is applied to provide a beautiful and durable furniture finish. Finish availability varies by door style.

Stain

Available as standard

		WOOD SPECIES
Finish	Code	Birch
Boardwalk	BWNON	❖
Pecan	PCNON	❖
Steel Grey	SGNON	❖
Twilight	TWNON	❖

Paint Finish Process

Painted finishes feature rich, beautiful color while allowing some of the natural beauty of the wood to show.

Several coats of rich, semi-opaque paint coat the wood or engineered substrate using an automated application process.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers.

Since wood naturally expands and contracts, you may see hairline separation in the finish surface at the joints. Joint lines are normal and do **not** affect the strength of the door's construction.

Finish availability varies by door style.

Note: Self-cleaning ovens generate high temperatures which can cause discoloration of painted finishes. To minimize risk, it is recommended that you open doors and drawers adjacent to the oven during cleaning cycles.

Laminate - Wrapped Process

Door rails and stiles are individually wrapped with laminate; ends of door stiles are edge banded. Slab drawer fronts are medium density fiberboard (MDF) core with laminate wrap and edge banded along side edges. The cabinetry face frame features solid hardwood finished to match the wrapped doors and drawer fronts. While great care has been taken to match the face frame to the doors and drawer fronts, texture and color variations can be expected. Prolonged exposure to tobacco smoke will discolor wrapped finishes, and this side effect is **not** covered under warranty. Finish availability varies by door style.

Note: Self-cleaning ovens generate high temperatures which can cause discoloration of laminated finishes. To minimize risk, it is recommended that you open doors and drawers adjacent to the oven during cleaning cycles.

Cabinet Specifications

Full Overlay - Concealed Hinges

- Full Overlay doors leave 3/16" of the cabinet's face frame exposed on either side of the doors and 3/8" exposed between doors
- Butt door cabinets have 1/8" reveal between doors
- Nickel-finished self-closing hinges. Adjustable six ways for perfect alignment
- SoftAction functionality integrated on most cabinets, allows doors to close softly and quietly
- The reveals shown here may vary slightly on some cabinets due to actual door/drawer front sizes used
- **Note:** Door styles with square outside edges are unable to be opened simultaneously on adjacent cabinets because the doors will rub together. This is a common occurrence due to the sizing of full overlay doors

Partial Overlay - Concealed Hinges

- Partial overlay doors leave 7/8" of the cabinet's face frame exposed on either side of the doors and 1 3/4" exposed between doors
- Butt door cabinets have 1/8" reveal between doors
- Nickel-finished self-closing hinges. Adjustable six ways for perfect alignment
- SoftAction functionality integrated on most cabinets, allows doors to close softly and quietly
- The reveals shown here may vary slightly on some cabinets due to actual door/drawer front sizes used

Cabinet Specs

Our cabinetry makes better use of nature's hardwood, while providing a quality product. The wide range of wood colors and grain variations are natural characteristics of the wood and not a defect.

CABINET FRAMES

3/4" thick, kiln dried, solid hardwood joined with pocket screw joinery construction.

END PANELS

3/8" thick engineered wood is permanently finished on 2 sides with a laminate resistant to water and most household chemicals. End panels are machined to accept tops, bottoms, and backs. Ends are drilled to accept adjustable shelves. Tall cabinet end panels are 1/2" thick.

OPTIONAL ALL PLYWOOD CONSTRUCTION END PANELS

1/2" thick unfinished veneer exterior. Interior is permanently laminated with laminate resistant to water and most household chemicals.

WALL TOPS AND BOTTOMS

1/2" thick engineered wood is permanently finished on 2 sides with a laminate resistant to water and most household chemicals.

OPTIONAL ALL PLYWOOD CONSTRUCTION WALL TOPS & BOTTOMS

1/2" thick plywood is permanently finished on 2 sides with a laminate resistant to water and most household chemicals.

BASE BOTTOMS

1/2" thick engineered wood is permanently finished on 1 side with a laminate resistant to water and most household chemicals.

OPTIONAL ALL PLYWOOD CONSTRUCTION BASE BOTTOMS

1/2" thick plywood is permanently finished one 1 side with a laminate resistance to water and most household chemicals.

SHELVES

3/4" thick engineered wood is permanently finished on 2 sides for full depth shelves. Half-depth base cabinet shelves in 39" wide cabinets and wider are finished 1 side, half-depth base cabinet shelves in cabinets less than 39" wide are finished two sides with a laminate resistant to water and most household chemicals. Front edge is edge banded with melamine banding. Wall and Base cabinets have adjustable shelves supported by adjustable shelf clips.

Half-depth shelves in base cabinets 39" wide and wider have a matching full-length support apron secured to the underside near the front edge for additional support. Shelves are designed to support 15 lbs. per square foot, not to exceed 50 lbs. per shelf.

OPTIONAL ALL PLYWOOD CONSTRUCTION SHELVES

3/4" thick plywood is permanently finished on 2 sides for full depth shelves and 1 side for half-depth Base cabinet shelving with a laminate resistant to water and most household chemicals. Front edge is edge banded with melamine banding. Wall and Base cabinets have adjustable shelves supported by adjustable shelf clips.

Half-depth shelves in Base cabinets 39" wide and wider have a matching full-length support apron secured to the underside near the front edge for additional support. Shelves are designed to support 15 lbs. per square foot, not to exceed 50 lbs. per shelf

BOOKCASE SHELVES

3/4" thick engineered wood, permanently laminated two sides to match exterior finish of cabinet. All bookcase units have adjustable shelves. Front edge is edge banded.

OPTIONAL ALL PLYWOOD CONSTRUCTION BOOKCASE SHELVES

3/4" thick plywood, permanently laminated two sides to match exterior finish of cabinet. All bookcase units have adjustable shelves. Front edge is edge banded.

WALL BACKS

3/8" thick engineered wood finished on one side with a laminate resistant to water and household chemicals. Full-length dadoes in back allow tops and bottoms to be captured, stapled and glued.

OPTIONAL ALL PLYWOOD CONSTRUCTION WALL BACKS

3/8" thick plywood finished on one side with a laminate resistant to water and household chemicals. Full-length dadoes in back allow tops and bottoms to be captured, stapled and glued.

BASE BACKS

1/4" thick engineered wood finished on one side with a laminate resistant to water and household chemicals. Extends full-length to floor.

OPTIONAL ALL PLYWOOD CONSTRUCTION BASE BACKS

1/4" thick plywood finished on one side with a laminate resistant to water and household chemicals. Extends full length to floor.

WALL HANG RAILS

3/8" thick engineered wood full-length across top and bottom secured with staples.

OPTIONAL ALL PLYWOOD CONSTRUCTION WALL HANGRAILS

3/8" thick plywood full-length across top and bottom secured with staples.

BASE HANG RAILS

1/4" Engineered Wood full-length across top secured with staples

DRAWER GUIDES

75 pound rated drawer guide system, side mounted, 3/4 extension with self-adjusting mounting brackets at rear. Drawer slides are fastened to the drawer box with screws.

DRAWER FRONTS

3/4" solid hardwood on all wood styles. Laminate and substrate on laminate drawer fronts use the same materials as corresponding door style.

DRAWER CORES

1/2" thick sides, fronts and backs of engineered wood. Top edges are finished with melamine banding. Side surfaces are finished with a laminate resistant to water and most household chemicals. 3/8" thick engineered wood bottom panel is finished on one side with same laminate. Laminate/edge banding finish is Natural Maple. Drawer sides are rabbeted to join the drawer box fronts and backs. Each corner is joined with glue and stapled. Standard drawer interior height is 3 5/8". Base cabinet interior front-to-back depth is 20 11/16", vanity is 17 15/16".

OPTIONAL DOVETAIL WOOD DRAWER WITH UNDERMOUNT GUIDE SYSTEM

5/8" sides, fronts and backs are solid hardwood. Drawer sides, fronts and backs are joined with half blind dovetail joints. Nominal 3/16" Medium Density Fiberboard (MDF) drawer bottom is laminate surface for easy cleaning. Drawer bottom is joined to the drawer sides, front and back on all 4 sides with a groove.

Hardwood drawer components are finished with clear sealer and topcoat on exposed surfaces. Standard drawer interior height is 2 3/4"; deep drawers are 5 3/4". Base cabinet interior front-to-back depth is 19 13/32", vanity is 16 7/16".

Full extension soft close undermount guide system is concealed, self-closing and can be adjusted to align the drawer head.

TOE KICK

1/2" thick engineered wood. Toe kick extends from floor to bottom of cabinet, closing the toe kick area. Toe kick cover is required and sold separately.

OPTIONAL ALL PLYWOOD CONSTRUCTION TOEKICK

1/2" thick plywood. Toe kick extends from floor to bottom of cabinet, closing the toe kick area. Toe kick Cover is required and sold separately.

HINGES

Partial overlay door styles come with fully concealed European style SoftAction hinges that feature 105° opening, 6-way adjustment, and a self closing feature on most doors.

Full overlay door styles come with fully concealed European style SoftAction hinges that feature 107° opening, 6-way adjustment, and a self closing feature on most doors.

Some corner cabinets using concealed hinges will have hinges with wider opening capability for improved access.

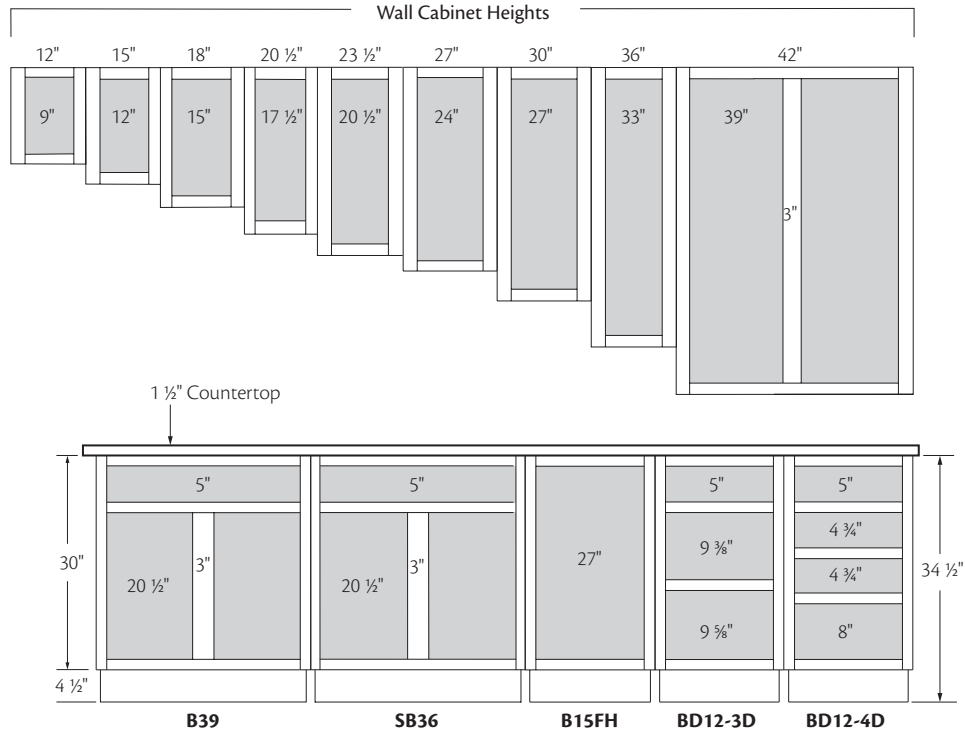

FIRE RESISTANCE

Overlaid engineered wood used for cabinet construction has been tested in accordance with UL standard recognized ASTM E162 Standard Test Method for Surface Flammability of Materials Using a Radiant Heat Energy Source, and is compliant with HUD Standard 3280.203.

FORMALDEHYDE EMISSIONS LEVELS

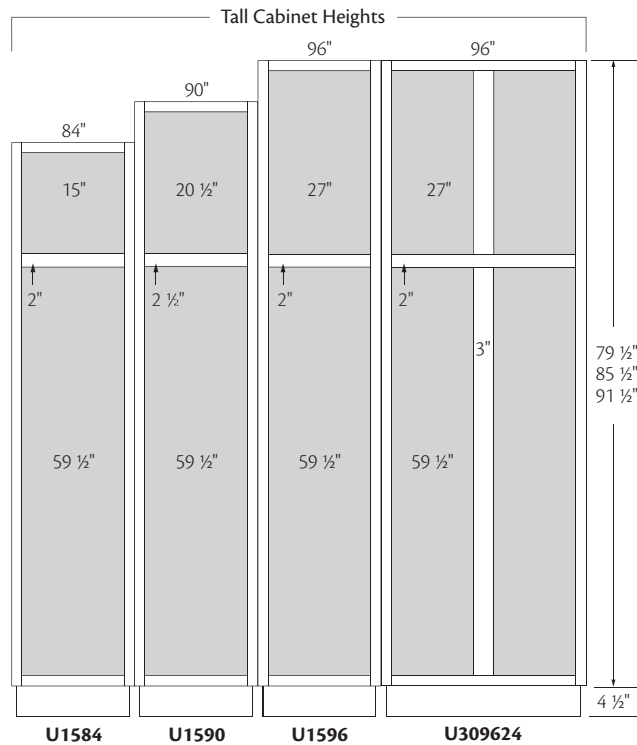

Formaldehyde emissions comply with requirements of 24 CFR Part 3280.308 (amended January 12, 2021), the HUD rule on Manufactured Home Construction and Safety Standards. All composite wood complies with EPA TSCA Title VI and CARB ATCM 93120 Phase 2 for formaldehyde emissions.

Wall and Base Frame Dimensions

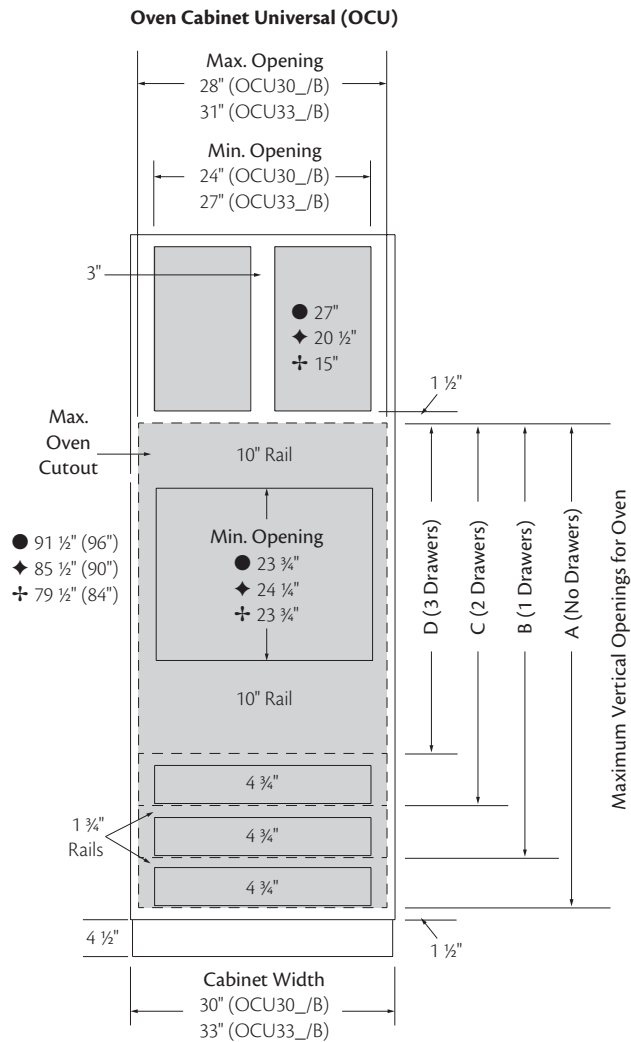

- Vertical opening sizes are shaded in grey
- Stiles and rails are 1 1/2" wide unless otherwise noted
- Unless otherwise noted, depth of cabinets excludes doors
- 3" wide vertical stiles divide double door cabinets. Stiles are removed on butt door cabinets

Tall Frame Dimensions

- Vertical opening sizes are shaded in grey
- Stiles and rails are 1 1/2" wide unless otherwise noted
- Unless otherwise noted, depth of cabinets excludes doors
- 3" wide vertical stiles divide double door cabinets. Stiles are removed on butt door cabinets

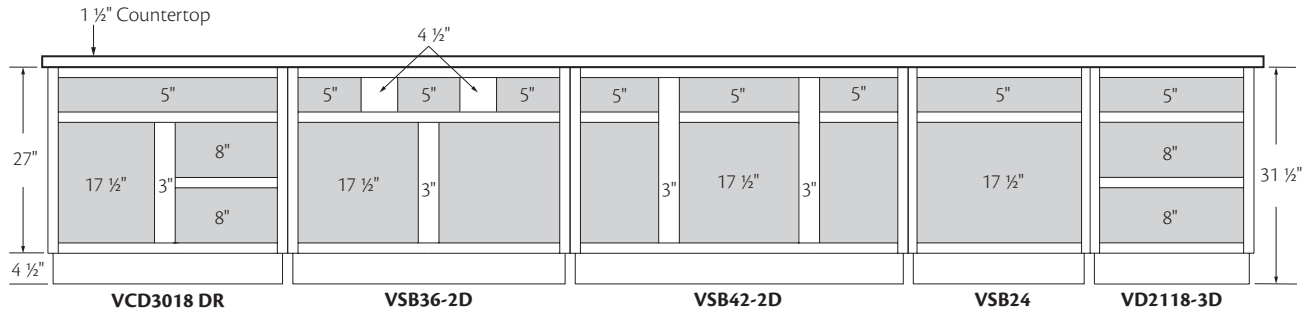

Oven Cabinet Universal Frame Dimensions

Maximum Vertical Openings for Oven				
Cabinet Height	A	B	C	D
84"	60"	53 3/4"	47 1/4"	40 3/4"
90"	60 1/2"	54 1/4"	47 3/4"	41 1/4"
96"	60"	53 3/4"	47 1/4"	40 3/4"

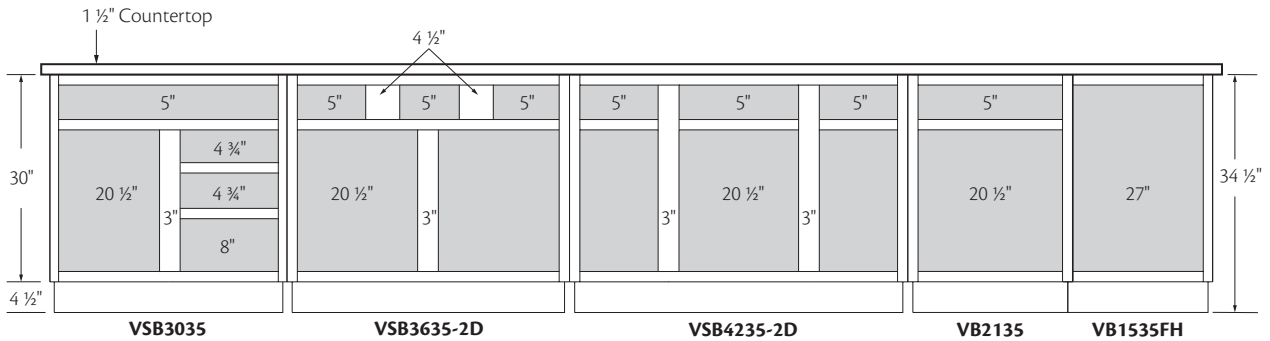

- Vertical opening sizes are shaded in grey
- Stiles and rails are 1 1/2" wide unless otherwise noted
- Unless otherwise noted, depth of cabinets excludes doors
- OCU cabinets have 3" wide trimmable full-length vertical stiles that provide opening width adjustment
- Substitute " _ " with cabinet's height
- 3" wide vertical stiles divide double door cabinets. Stiles are removed on butt door cabinets

31 1/2" Vanity Frame Dimensions

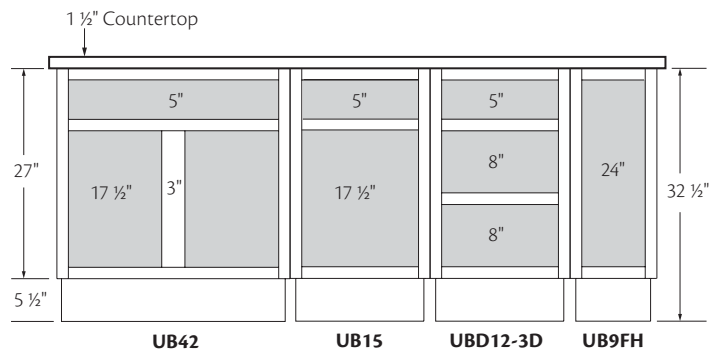

- Vertical openings are shaded in grey
- Stiles and rails are 1 1/2" unless otherwise noted
- Unless otherwise noted, depth of cabinets excludes doors
- 3" wide vertical stiles divide double door cabinets. Stiles are removed on butt doors

34 1/2" Vanity Frame Dimensions

- Vertical openings are shaded in grey
- Stiles and rails are 1 1/2" unless otherwise noted
- Unless otherwise noted, depth of cabinets excludes doors
- 3" wide vertical stiles divide double door cabinets. Stiles are removed on butt doors

Universal Frame Dimensions

- Vertical openings are shaded in grey
- Stiles and rails are 1 1/2" unless otherwise noted

Cabinet Construction

What Is In Some of Our Plywood?

Multiple layers of wood materials, including wood veneers and medium density fiberboard (MDF), are used to create a hybrid product containing the following benefits:

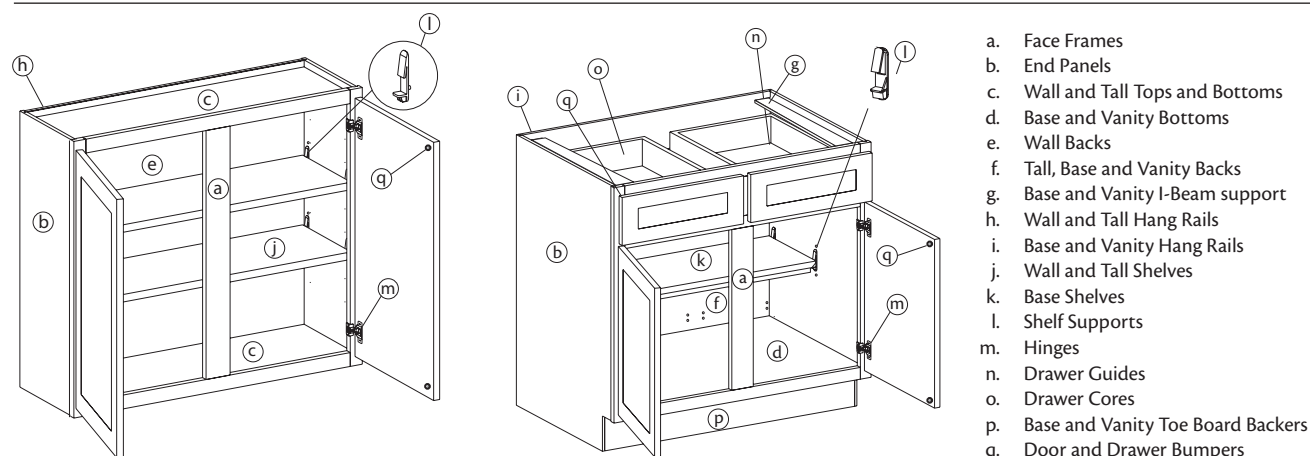

- Improved Strength and Finish Quality: Reduced expansion or contraction, which is better for a smooth, quality finish. This process also produces more rigid product.
- Environmentally Friendly: Supports CARB II standards.
(CARB, or California Air Resource Board, is a control measure for reduced formaldehyde emissions from composite wood products).

Regardless of the wood material used in the various applications of our Plywood Construction, you can feel confident that some of the highest quality materials available are used to help ensure durable and long-lasting cabinets.

Note: According to the Department of Commerce, the core of hardwood and decorative plywood consists of a layer or layers of one or more material(s) that are situated between the face and back veneers. The core may be composed of a range of materials, including, but not limited to, veneers, particleboard, engineered wood and medium density fiberboard (MDF).

Note: All plywood construction refers to the structural elements of the products. Products also include glue, hinges, guides, fasteners, veneer and vinyl-clad drawer bottoms, toe kick support blocks, and hinges.

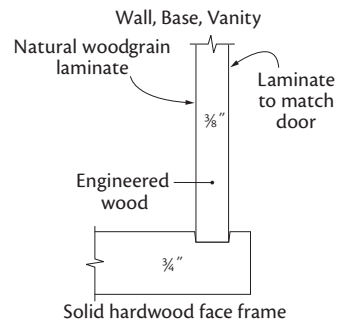

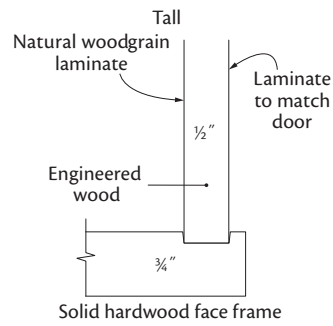

Material dimensions may vary slightly based upon lumber industry standards. Specifications subject to change without notice.

Standard Full-Width Trays

1FT

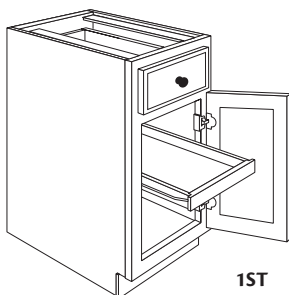

- Standard tray spans the full-width of cabinet
- Standard trays sides and back are 1/2" thick engineered wood with 3/8" thick engineered wood bottom, natural wood grain laminate. Fronts are 3/4" thick solid hardwood
- Wood trays have solid hardwood tray core with 3/4" thick front, 1/2" thick sides and back, and 3/16" vinyl-clad bottom panel with natural woodgrain laminate
- Available in select Base cabinets
- 3/4 extension side mount glide
- 75 lbs. capacity
- Shelves are omitted from cabinets when Roll-Out Tray options are selected
- (ADU) has solid wood Roll-Out Trays, order using Standard Trays
- **Note:** Unavailable on cabinets reduced to 12" or 15" deep

Wall Cabinet Information

Note: Standard wall cabinet box depth is 12" unless stated otherwise. Add door thickness with bumpers for total depth.

Caution: Installation of a wall cabinet 30" or wider requires additional support, such as attachment to a soffit, or support from below. Failure to provide additional support could result in collapse of the cabinet, serious personal injury, or property damage. Damage relating to failure to provide additional support is not covered by the limited warranty. See warranty for details.

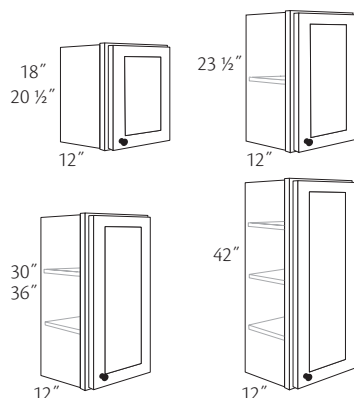

Any wall cabinet over 24" wide or 30" high with a depth greater than 12" and/or butt doors must be installed between two cabinets, a cabinet and a wall, or supported from below.

Cabinets with a "B" suffix have BUTT doors without a center stile.

Note: Cabinets ordered with ADU construction option will be supplied with unfinished exterior end panel. Wall end panel is required to finish exposed end of cabinet run.

Material dimensions may vary slightly based on lumber industry standards. Specifications subject to change without notice.

Wall Blind Corner

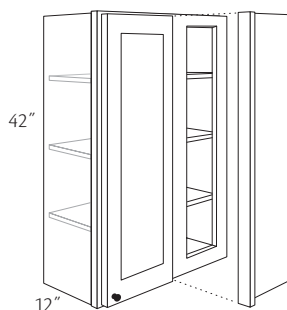

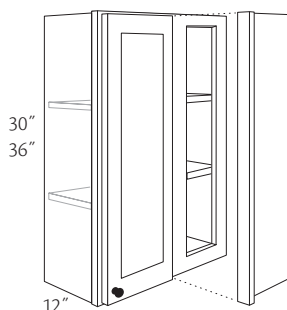

Wall Blind Corner Cabinet Information

- Wall blind corner cabinets provide access to corner space and can adjusted up to 2 7/8" max. to aid in kitchen cabinet layout. Consult chart for pull dimensions and min. wall space requirements
- Pulling the cabinet away from the corner (2 7/8" max.), and using the supplied filler and panel provides clearance for opening doors when hardware is used
- BR or BL indicates blind end of cabinet. Please specify
- Door hinged on same side as blind
- Cabinets may be changed from right to left blind by inverting cabinet
- **Note:** A blind panel with 3" filler is included with each WBC cabinet; shipped unattached
- **Note:** Cabinets ordered with ADU construction option will be supplied with unfinished exterior end panel. Wall end panel is required to finish exposed end of cabinet run

Universal Cabinet Information

We manufacture cabinets that are readily used in floor plans that meet current ADA Accessibility Guidelines for Building and Facilities (ADAAG) guidelines. The primary responsibility to make a space comply with these guidelines is on the architect or space planner. Our products can be used to help satisfy the storage needs and accessibility requirements of disabled persons but depends on the knowledge, skill and creativity of the design professional and proper installation of these products. ADA Accessibility Guidelines for buildings and facilities can be visited online at: www.access-board.gov

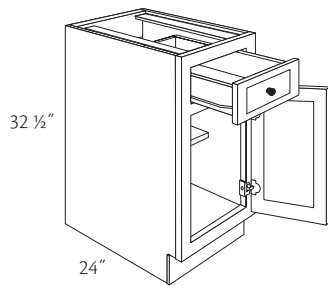

Universal Access cabinetry features a 5 1/2" high toe kick.

Cabinets with a "B" suffix have BUTT doors without a center stile.

Material dimensions may vary slightly based on lumber industry standards. Specifications subject to change without notice.

Note: Cabinets ordered with ADU construction option will be supplied with unfinished exterior end panel. Base end panel is required to finish exposed end of cabinet run

RMBUMFESAGDEDKDSET

- Attaches using the guide holes in the back of the cabinet
- Includes a left and right rear mounting bracket

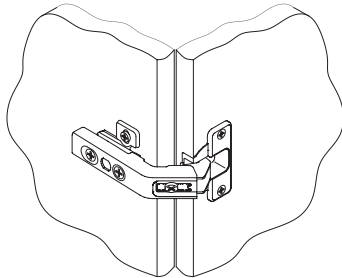

Rear Mounting Bracket - Full Extension Under Mount Soft-Close Guides Peninsula Base
RMBUMFESAGDEPB-2

- Attaches to back frame of cabinet using a screw
- Sold in pairs

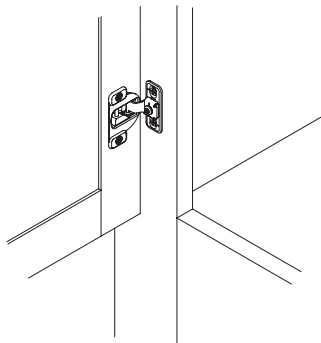

170 Degree Hinge
HINFRM2DRBIFOLD

- Nickel plated finish
- Includes hinge and mounting plate
- Used on partial and full overlay Base Corner Revolving and Base Corner Fixed Shelf cabinets

Bi-Fold Hinge
HINDR2DRBIFOLD

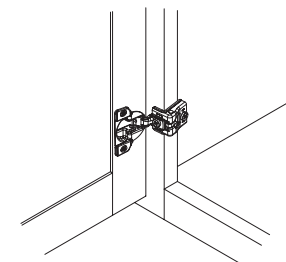

- Nickel plated finish
- Includes hinge and mounting plate
- Used on partial and full overlay Base Corner Revolving and Base Corner Fixed Shelf cabinets

Face Mount Hinge

SoftAction functionality
HINSCFM-1PR
HINSCFM-10PR

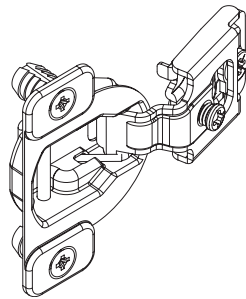

- Nickel plated finish
- Used on Oven Cabinet Universal and Wall Microwave cabinets
- Offered as a pair or 10 pairs per carton

Full Overlay 6 Way Hinge

SoftAction functionality
HINSCFOL6WY-1PR
HINSCFOL6WY-10PR

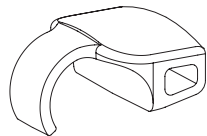

- Nickel plated finish
- 6 way door adjustment
- Includes hinges and mounting screws
- Used on full overlay cabinets
- Offered as a pair or 10 pairs per carton

Partial Overlay 6 Way Hinge

SoftAction functionality
HINSTOL6WY-1PR
HINSTOL6WY-10PR

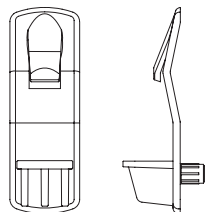

- Nickel plated finish
- 6 way door adjustment
- Includes hinges and mounting screws
- Used on partial overlay cabinets
- Offered as a pair or 10 pairs per carton

Soft-close Angle Restrictor Clip

SCARC-4
SCARC-10

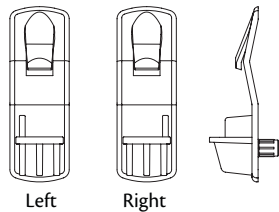

- Reduces opening angle to 85°
- Works with soft-close hinge on partial and full overlay door styles
- Unable to be used in cabinets that are installed with accessories, such as trays
- Offered in four or 10 per carton

Shelf Clips

3/4" Shelf Clip
SHCLP34
SHCLP34-20
SHCLP34-100

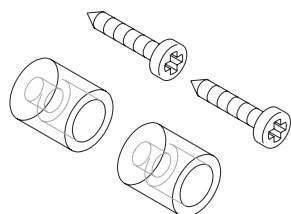

- Clear plastic locking clip
- Offered individually or in quantities of 10 or 100

Shelf Clip with Stop

3/4" Shelf Clip, Left
SHCLPLK34L
SHCLPLK34L-20
3/4" Shelf Clip, Right
SHCLPLK34R
SHCLPLK34R-20

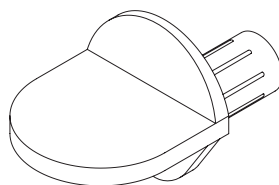

- Clear plastic locking clip with front edge restraint
- Used for base cabinets with Half Depth Shelf Option
- Offered individually or 20 per carton

Shelf Support Back Pack

SHSUPBPK
SHSUPBPK-100

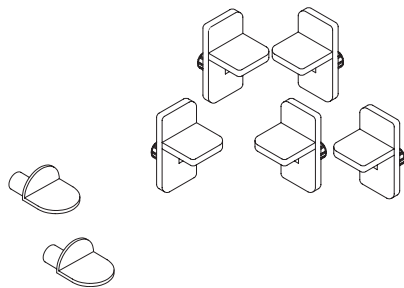

- Clear plastic shelf support back
- Includes 2 supports and 2 screws per pack
- Used to support the back edge of shelf, attaches to back of cabinet with a screw
- Offered individually or quantities of 100 per carton

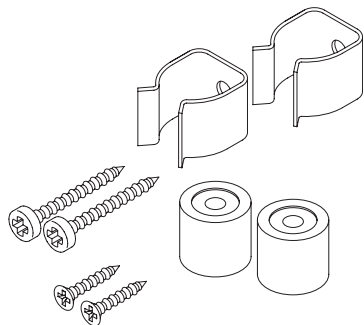

Shelf Support Center

SHSUPC
SHSUPC-10

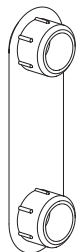

- Clear plastic center shelf support
- Used to support the front edge of shelf, insert into hole in back of center stile
- Offered individually or 10 per carton

Shelf Support Pack**SHSUPPK
SHSUPPK-25**

- Clear plastic shelf support/center shelf support
- Includes 5 supports and 2 center shelf support
- Used in Bookcase cabinets
- Offered individually or 25 per carton

Vent Clip Pack**VNTCLPPK
VNTCLPPK-25**

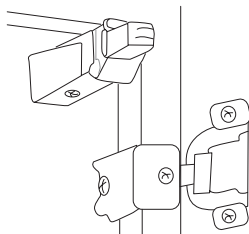

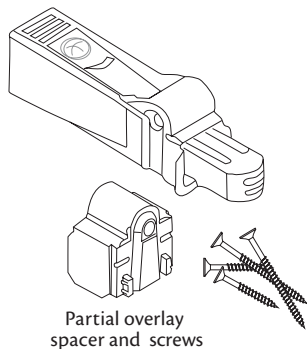

- Used to attach false drawer fronts on Sink Base and select Vanity Cabinets
- Includes two clips, two post and mounting screws per pack
- Offered individually or 25 per carton

Back Plugs**BACKPLUG2H-10
BACKPLUG2H-100**

- Clear plastic plugs for base and vanity cabinet back panel factory drilled holes
- Each plug fills a pair of 10 mm holes
- Offered in quantities of 10 or 100

Installation Screws**INSTALLSCREWS-100**

- Used to secure cabinets to the wall and face frames together
- Offered in quantities of 100

Soft-Close Door Hardware**SADO**

- Soft-closing technology provides smooth and silent closure of door
- One required per door; U, and UF cabinets require two
- Mounting hardware included

Accessory Hinged Prep for Glass Door Information

Example for ordering Accessory Hinged Prep for Glass Doors: **Model + Options**

Model	Hinging	Code	Glass Door	Code
AHDO1830	Left	L	Left	(SKU:AHDO1830LPG)
AHDO1830	Right	R	Right	(SKU:AHDO1830RPG)

- Accessory Hinged Prep for Glass Door is available in select door styles and sizes. See informational chart for quantities needed for each cabinet
- Unless ordered as a Case Only (CSO), cabinets intending to receive Prep for Glass (PG) doors will ship with original, non-glass doors. If original non-glass doors are **not** required, cabinets should be ordered as Case Only (CSO) with the appropriate Prep for Glass (PG) size to be installed in the field
- Partial overlay available in Collins and Colony door styles only
- Full overlay available in Wesley door style only

- Repairs: scratches and chipped areas, open joints, cracks, cavities, finish runs, rough finish, finish edge cut-through, burn marks, spray finish applications, and putty applications
- Kit includes one of each: 13 oz. can Touch-up Primer, 13 oz. can Touch-up Topcoat, 4 oz. can soft putty, 1 oz. tube SeamFil, Touch-up Marker, Fill Stick, 220x sandpaper, and instruction sheet
- Available in Cotton, Shale, Grey and White only

Fill Stick FS FS-12

- Matching putty crayon
- Offered individually or 12 per carton

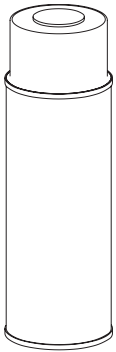

Touch Up Kit TUK

- Used for final touch up and detailing
- Kit includes Touch Up Pen, Fill Stick, a bottle of touch up topcoat and a plastic storage case

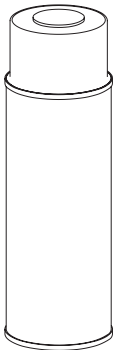

Touch Up Pen TP TP-12

- Felt tip marker with matching stain or paint
- Offered individually or 12 per carton

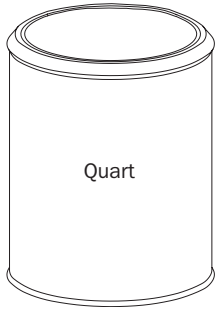

Touch Up Spray Can Primer TSCP TSCP-12

- Touch up top coat paint for Cotton, Shale, Grey and White finishes
- White primer will be shipped for Cotton and Shale paints
- For use with Touch Up Spray Can Topcoat
- 13 oz. aerosol spray can
- Direct ship program
- Offered individually or 12 per carton

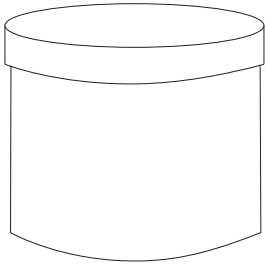

Touch Up Spray Can Topcoat TSCT TSCT-12

- Touch up top coat paint for Cotton, Shale, Grey and White finishes
- Color specific topcoat will be shipped
- For use with Touch Up Spray Can Primer
- 13 oz. aerosol spray can
- Direct ship program
- Offered individually or 12 per carton

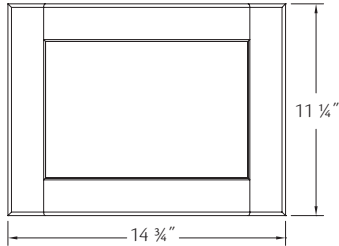

Touch Up Quart*Stain*
QST*Paint*
QP*Clear Sealer/
Topcoat*
QCST

- Matching stain, paint, and clear sealer/topcoat
- Available in quarts only
- Direct ship program

Putty
PUTTY

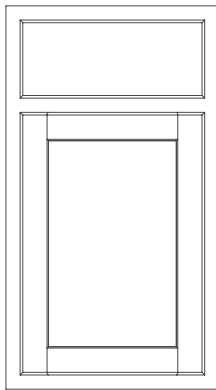

- 4 oz. jar
- Available in Cotton, Shale, Grey and White only

Sales Doors

Sales Door
SLDO14.75X11.25

- Available in all door styles, species and finishes
- Door and drawer front sizes vary depending on full or partial overlay

Vanity Front Sample
VF12
VF15

- Available in all door styles, species and finishes
- Includes face frame, door and drawer front from a VB12 or VB15 Vanity cabinet

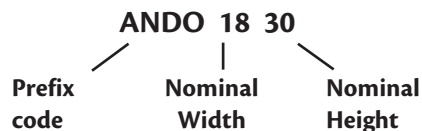

How to Use This Section

This guide details how to understand the accessory door(s), replacement door(s) and drawer front nomenclature. To choose doors and drawer fronts for special decorative applications, use the Sizes section and look in the appropriate overlay column to determine which doors and drawer fronts are needed. Then look up the door(s) and drawer front(s) in the Price List catalog under the price column number appropriate to your door style.

Accessory Non-Drilled Door Information (ANDO)

Accessory non-drilled doors are not prepared for hinges.

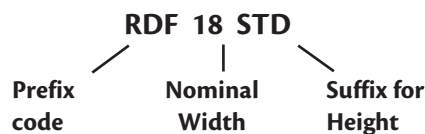

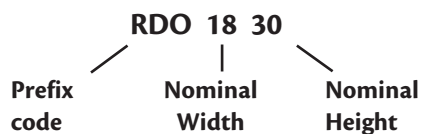

Accessory non-drilled doors are coded for easy reference. The prefix indicates door and usage. The first two digits indicate nominal width and the second two digits indicate nominal height.

Replacement Door and Drawer Front Information (RDO and RDF)

Replacement doors are prepared for hinges. Replacement doors and drawer fronts are shipped with pliable bumpers attached.

Replacement doors and drawer fronts are coded for easy reference. The prefix indicates door or drawer and usage. For replacement doors the first two digits indicate nominal width and the second two digits indicate nominal height. For replacement drawer fronts the first two digits indicate nominal width and the suffix notes the height.

Prefix Codes

Prefix Code Index

ANDO	Accessory Non-Drilled Door
RDF	Replacement Drawer Front
RDO	Replacement Door

Suffix Code Index

B	Butt door
TALL	Tall Door
WA	Wall Angle

Accessory Non-Drilled Door specific codes are as follows:

ANDOBCR33	Accessory non-drilled door for Base Corner Revolving 33
ANDOBCR36	Accessory non-drilled door for Base Corner Revolving 36
ANDOUBCR36	Accessory non-drilled door for Universal Base Corner Revolving 36
ANDOWBC24/27(xx)	Accessory non-drilled door for Wall Blind Corner 24/27 (all heights)

Replacement Door specific codes are as follows:

RDO1524BWBT	Replacement door for Base Wastebasket
RDO1824BWBT	Replacement door for Base Wastebasket
RDOBCR33	Replacement door for Base Corner Revolving 33
RDOBCR36	Replacement door for Base Corner Revolving 36
RDOSFA36	Replacement door for Sink Base Angle 36
RDOSFA42	Replacement door for Sink Front/Sink Base Angle 42
RDOUBCR36	Replacement door for Universal Access Base Corner Revolving 36
RDOUBLS	Replacement door for Universal Access Base Lazy Susan
RDOWBC24/27 (xx)	Replacement door for Wall Blind Corner 24/27 (all heights)

Replacement Drawer Front suffix codes are as follows:

DKD	Desk Knee Drawer
STD	5.500 or 6.125 front height
DP1	9.000 or 9.750 front height
DP2	10.375 or 11.188 front height

MERILLAT CABINETRY

MERILLAT BASICS™ COLLECTION

3-YEAR LIMITED WARRANTY

We know that you've put a great deal of time, thought and investment into the selection of your cabinetry, and we truly appreciate your decision to purchase Merillat® products.

In the unlikely event that you encounter a problem with your cabinetry, we are ready and eager to assist you, subject to the terms of this Limited Warranty.

This Limited Warranty is extended to the original Customer only for use of the product within the United States. This Limited Warranty is not transferable. No changes or modifications can be made to this Limited Warranty except by a company officer.

STATEMENT OF LIMITED WARRANTY

We firmly stand behind the quality of our products, and warrant to you, our Customer, that **our cabinetry will be free from defects in material and workmanship under ordinary use for a period of 3 years from the date of purchase.**

LIMITATIONS AND EXCLUSIONS

This Limited Warranty is limited to defects in material and workmanship and does not apply to:

- Damage caused by the improper installation of your cabinets.
- Damage, theft, or loss that occurs after we have properly delivered your cabinets to you, or your retailer, dealer, builder or contractor.
- Issues with other products used or installed in connection with your cabinets including, but not limited to, appliances, countertops, or plumbing fixtures (including the costs to remove and reinstall such other products).
- Damage caused by misuse, abuse, neglect, accident, alteration, improper or non-residential use, exposure to moisture or extreme temperatures, or other environmental factors in your home, including smoke damage, failure to maintain or acts of God.
- Naturally occurring wood characteristics such as, but are not limited to, variations in color or grain pattern, and knots. These characteristics will be prominent through stained finishes and may be visible through painted finishes.
- Natural joint movement and seam lines. Wood will expand and contract with changes in temperature and humidity. Wood components, such as doors and frames, will develop seam lines, which include small joint separations and hairline cracks in the finish in locations where wood is joined together. Painted finishes are particularly prone to seam lines.
- Changes in color and finish due to UV light, sunlight, smoke, household cleaners, and other environmental conditions and general aging. As cabinetry products age, the finish may mellow or discolor slightly.
- Variations from samples and displays. Wood varies significantly from piece to piece. Wood finishes change in sheen and color over time due to exposure to natural and artificial light and other environmental factors. Because of this, new and or replacement cabinets may not match showroom displays, color chip samples, photographs in catalogs or websites, or existing cabinetry in your home.
- Damage caused by ordinary wear and tear.

WARRANTY PERFORMANCE

In the event of a defect in material or workmanship within the terms and conditions set forth herein, we will repair or replace the product, at our sole option, without charge. If the affected product is no longer available, Merillat reserves the right to: (i) replace the affected component with a new component of a similar style, or (ii) replace the affected component and any other component within the total product to achieve a uniform appearance with as similar and comparable product style and quality as possible to the original product.

We cannot guarantee that replacements will match the finish and appearance of the original product. Our warranty extends solely to the product. We are not responsible for the cost of: (i) removal of defective product, (ii) installation of repaired or replaced product, or (iii) removal or installation of appliances, plumbing, flooring, or other fixtures. Repaired or replaced product shall be warranted for a period equal to the remaining period of the original Limited Warranty on the product or for ninety days, whichever is longer.

LIMITED WARRANTY DISCLAIMER

THIS LIMITED WARRANTY SETS OUT THE FULL EXTENT OF MERILLAT CABINETRY'S RESPONSIBILITIES, AND THE EXCLUSIVE REMEDY REGARDING THE PRODUCTS. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL MERILLAT BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT OR FOR, WITHOUT LIMITATION, COMMERCIAL LOSS OF ANY SORT; LOSS OF USE, TIME, DATA, REPUTATION, OPPORTUNITY, GOODWILL, PROFITS OR SAVINGS; INCONVENIENCE; INCIDENTAL, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES; OR DAMAGES ARISING FROM THE USE OR INABILITY TO USE THE PRODUCT. SOME STATES AND JURISDICTIONS DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, OR THE DISCLAIMER OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND DISCLAIMERS MAY NOT APPLY TO YOU. IF ANY PORTION OF THIS LIMITED WARRANTY IS HELD TO BE ILLEGAL OR UNENFORCEABLE, SUCH PARTIAL ILLEGALITY OR UNENFORCEABILITY SHALL NOT AFFECT THE ENFORCEABILITY OF THE REMAINDER OF THE LIMITED WARRANTY.

CLAIMS

To initiate a claim, contact your retailer, dealer, builder or contractor.

If you cannot initiate your claim through your place of purchase or if you have difficulty obtaining assistance, you may submit a claim by filling in our online form: <https://www.merillat.com/customer-support/contact-us.html>

All claims must be submitted in writing and must specify all issues you have with your cabinets. Pictures are also very helpful to assist in processing your claim. Once Merillat has had an opportunity to review your claim, we will, at our sole discretion, either replace defective cabinets and accessories or repair any defects in the cabinets and accessories within a commercially reasonable period of time.

The Merillat Basics™ Collection is a product of Cabinetworks Group Michigan, LLC, located at 20000 Victor Pkwy, Livonia, MI 48152, (734) 205-4600.

This Limited Warranty is effective for products purchased on or after **June 13, 2022**.
