Quality Comes First

Your choice of cabinetry makes a personality-defining statement in your home. Selecting the right cabinets is an important first step because your cabinets should be just as functional on the inside as they are beautiful on the outside. Cabinets should withstand the demands of daily use and maintain their integrity throughout their lifetime.

That's why quality comes first at NorthPoint Cabinetry. Every detail is carefully considered to ensure our cabinets not only meet our high quality standards, but yours as well. Our commitment to quality combined with our on-trend finishes, door styles, and product depth and breadth are what make NorthPoint Cabinetry the perfect choice for your project.

IT STARTS WITH QUALITY WOOD

Just as a healthy tree needs strong roots to thrive, a quality cabinet requires premium lumber at its core. The quality of wood is of utmost importance, so our cabinets feature all-wood construction.

STRUCTURAL INTEGRITY

Meaningful yet hidden reinforcements—like solid wood corner blocks and strategically placed pocket screws—help reinforce the structural integrity of the cabinet. Take comfort that these well-constructed cabinets will stand the test of time.

THOUGHTFUL CRAFTSMANSHIP

These cleverly designed cabinets boast an innovative dovetail and hidden pocket screw construction that provides robust quality and quick, accurate assembly.

PRETTY ON THE INSIDE, TOO

NorthPoint Cabinetry features a clean and beautifully finished birch interior that enhances the cabinet's luxurious, high-quality appeal.

PREMIUM DRAWER BOXES

Dovetail joinery is the hallmark of high-quality drawer boxes. The UV finish of the drawer, dovetail construction, and smooth concealed slides are synonymous with quality furniture.

HARDWORKING HARDWARE

Our cabinets feature discreet compact hinges and concealed undermount slides. The hinges and slides have been third-party tested and exceed industry standards. The Premier Collection (shown) features full extension slides, allowing for easy access and use of the whole drawer.

STURDY SHELVES

NorthPoint Cabinetry shelves are constructed from an impressive 3/4" thick veneered plywood, preventing sagging over time under the weight of normal use. Shelf height is adjustable, so the homeowner can optimize storage space.

Expert Finishing

Count on consistent, high-quality finishing. Our state-of-the-art manufacturing facility utilizes a multi-step professional finishing process. This meticulous process maintains a high degree of color and application accuracy from cabinet to cabinet, ensuring a beautiful run of cabinets when installed.

Long Cabinet Pulls Look Best

Cabinet knobs and pulls come in a variety of sizes, styles and finishes. But which ones should you choose?

You could decide to use all cabinet pulls. Or you may prefer the look of all cabinet knobs. Or you can mix knobs and pulls in your kitchen. Which one is right? They all are. All it comes down to is your personal preference.

Best Look

Catalina Pebble Grey Cabinets

Decorative Cabinet Hardware: Roman Collection in Matte Black

To achieve a cohesive & finished look, select a pull that's proportional in length to the cabinet door or drawer. Shorter doors & drawers use shorter pulls; longer doors & drawers use longer pulls.

Add Lighting to Brighten the Kitchen

Highlight the beauty of your cabinet design with LED lighting from Task Lighting & Power®. Select from a variety of assembled linear fixtures, tape lighting, puck lights, and specialty lighting—allowing your clients to set the mood in any room.

Catalina Polar White & Slate Cabinets

1 ILLUMINATE COUNTERTOPS WITH UNDER CABINET LIGHTING

Illuminate countertops with under cabinet lighting to enhance functional spaces, highlight beautiful backsplashes, or eliminate shadows created from cabinets. Under cabinet lighting creates ample illumination for meal prep and reading recipes.

2 ACCENTUATE DECORATIVE ITEMS ON DISPLAY WITH IN CABINET LIGHTING

Use lighting in glass-faced cabinets to accentuate decorative items on display or highlight beautiful crystal and china. Adding lighting inside a glass door cabinet gives a nice wash of light throughout the cabinet.

3 HIGHLIGHT BEAUTIFUL FLOORING WITH TOE KICK LIGHTING

Add lighting under the toe kick to highlight beautiful flooring during the daytime. At night, keep floors safely illuminated with a gentle glow for midnight snacking.

4 ADD AMBIANCE AND MAKE THE SPACE FEEL LARGER WITH ABOVE CABINET LIGHTING

Add depth and ambiance to your kitchen by highlighting the open space above cabinets to increase the aesthetic appeal and make the space feel larger.

Select the Perfect White Color Temperature for Lighting Any Space

When installing lighting, it's important to select an optimal white color (Kelvin) temperature that accentuates the beauty of the space. Pro tip: Using the same color temperature lighting throughout a room gives it a clean, even feel.

Or...Use Tunable White Lighting to Easily Change the White Color Temp Any Time!

Install tunable white lighting with patented TandemLED® technology to experience full tuning control of the white color temperature, from Warm White to Daylight White and all shades of white in between.

Using the wireless controller, adjust the white color temperature of tunable white lighting at any point throughout the day to match the natural lighting outside. A routine can also be set up in a Smart Home system's app to mimic the natural outdoor lighting throughout the day automatically.

IS NORTHPOINT CABINETRY RIGHT FOR YOUR BUSINESS?

Do your projects have short timelines?

Want to grow your business without adding overhead?

Is the budget too tight for custom cabinets?

**NORTH
POINT**
CABINETS®

NorthPoint Cabinetry is a line of professional-grade, quick-assembly cabinets that helps your bottom line. Let us show you how!

What are QuickBuild® Cabinets?

Dovetail + Pocket Screws = QuickBuild®

Basic assembly of our cabinets is as simple as sliding the panels together and securing with pocket screws. You don't need extra fasteners to hold the panels in place, and conveniently placed pocket screws will reduce the average time you spend on each cabinet.

How fast can you build a cabinet?

One of our cabinets takes about 8 minutes* to assemble (many do it in 4). You can build a kitchen or bathroom in record time!
